SKILLS

- **Languages:** Java, Python, HTML, CSS, C, SQL, JavaScript
- **Technical:** GitHub, Heroku, PostgreSQL, Database Design, PyCharm, oral speaking/presentation, teaching

LEADERSHIP & SERVICE

- **Google CS First Instructor**
◦ Volunteer to coached and tutored primary and secondary students in introductory computer science and coding fundamentals to provide early-age exposure
◦ In partnership with UPE @ FIU

PROJECTS

- **WhatsApp Automated Message Scheduler:** WhatsApp lacks an open-access API. This is a substitute for an API-based messenger common to other messengers. Schedules and sends messages by day and time.
- **BAvGraph:** Uses web-scraping to fetch a Major League Baseball (MLB) player's batting average (BA) in each season played. This data is then converted to a scatter plot for the user to see.
- **Type Racing Simulator:** A website to practice typing various quotes. Provides user with WPM (words per minute score) and timer while they finish typing the quote.

Professional Societies & Organizations

- **Upsilon Pi Epsilon (UPE/ΥΠΕ)** | FIU Chapter
◦ Nationwide organization for students in computing and technology disciplines
◦ Honor Society Member
◦ SparkDev
